## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The independent claim, claim 1, recites formulae (I), (II), and (III), however, there is no structure associated with said formulae, thereby rendering the claim indefinite. The dependent claims (2-14) do not obviate this disparity and are therefore also rejected.

Claim 15 does not recite any positive method steps, but instead refers to the examples. However, claims must be capable of standing alone, without having to refer to the specification for clarity, and as such, the instant claim is also rendered indefinite.
